

Practical Expertise

Engineered Solutions

Ecoatech is a specialist provider of blasting and coating solutions, combining premium global products with locally engineered systems and deep technical expertise. We partner with contractors, asset owners and operators to improve coating outcomes, reduce downtime, and enhance long-term asset performance.

WHO WE ARE

OUR SERVICES

WHY CHOOSE US

Industries We Serve

- Mining & Resources
- Marine & Offshore
- Oil & Gas
- Infrastructure & Bridges
- Industrial Maintenance

"We focus on delivering measurable outcomes - not just products."

Equipment Supply

- Abrasive blasting equipment and accessories
- Airless and plural component spray equipment
- Surface preparation and coating application equipment
- Inspection, QA/QC and environmental monitoring equipment
- Industrial brushes, rollers and application consumables
- Consumable supply from leading global manufacturers

Engineered & Bespoke Solutions

- Equipment specification and project matching
- Bespoke equipment solutions tailored to specific project and operational requirements
- Custom-designed blasting and coating systems built around your site needs
- Equipment hire and project-specific equipment packages

Training & Support

- On-site commissioning and technical support to ensure correct product use, improved application techniques, and better project outcomes
- Applicator training and certification pathways
- Equipment servicing, repairs and spare parts supply

Deep Industry Experience

Proven expertise across blasting and coating - delivering practical, fit-for-purpose solutions that work on-site.

Engineered for Your Site

We adapt and build equipment around your specific project, improving usability, mobility, and on-site efficiency.

Complete Project Support

We provide practical support at every stage - from specification and supply to implementation and ongoing service.

Safety & Compliance

Engineered solutions and training that enhance operator safety and environmental outcomes on-site.
